INDEX TO VOLUME 20

ORIGINAL ARTICLES

Acromegaly followed by pituitary calcification, 847
ADAMS, A. E., and E. N. WARD. The effect of hypophysectomy and of phyone injections on the pancreas and liver of the newt, 496
Addison's disease and adrenal atrophy, 383
Adrenal atrophy and Addison's disease, 383
cortex extract, weight changes due to, 565
cortical extract and bacterial toxins, 93
cortical tumor, 567
Adrenal gland, effect of alkaline extract of anterior hypophysis upon, 159
effect of estrogenic substances on, 746
pressor effect of glycerine extract of, 188
Adrenalectomy, survival after, 550
survival after, 556
AGRESS, C. M. See Bodansky, M., 684
ALBRIGHT, F. Studies on ovarian dysfunction III The menopause, 24
ALLEN, E., A. W. DIDDLE, T. H. BURFORD and J. H. ELDER. Analyses of urine of the chimpanzee for estrogenic content during various stages of the menstrual cycle, 546
ALLEN, E. See Burford, T. H., 635
ALLEN, W. M. See Reynolds, S. R. M., 681
Allergic reactions, influence of endocrine preparations on, 171
ALPERS, B. J. See Mazer, C., 753
ANDREW, R. H., and F. FENGER. The isolation from ovarian tissue of a crystalline substance possessing high estrogenic properties, 563
Anterior pituitary extract in treatment of pituitary infantilism, 854
Anterior-pituitary-like hormone of pregnancy urine in sexual underdevelopment, 781
Antidiuretic activity of posterior lobe, effect of interruption of supraoptico-hypophyseal tracts on, 762
Anti-gonadotropic substances, 311
Antuitrin S, effect of, on sexually inactive male ground squirrel, 219
Arrhenoblastoma, case of, 373
AYRES, G. B. See Lee, M., 489

Bacterial toxins and cortico-adrenal extract, 93
BAKER, B. L., and G. E. JOHNSON. The effect of injections of Antuitrin-S on the sexually inactive male ground squirrel, 219
BALDWIN, L. G., and J. A. GAFFORD, JR., Arrhenoblastoma case report, 373
BARBER, A. S. See Watson, E. M., 358
BARR, D. P. See Bulger, H. A., 137
BARR, D. See Orgel, M. N., 839
BATES, R. W. See Riddle, O., 1
BENNETT, R. J., JR. A simple method of hypophysectomy in dog, 860
BERMAN, L. Studies of Paget's disease II. The effect of adreno-cortical extract treatment upon the blood phosphotase in Paget's disease, 226
BLOCH, P. W. Progestin content of blood, 307
Blood iodin level, influence of calcium intake on, 809
Blood, progestin content of, 307
Blood volume, effect of estrogenic substance on, 329
BODANSKY, M., C. M. AGRESS, K. R. CAMPBELL and C. L. HERRMANN. Mortality following bilateral adrenalectomy combined with renal decapsulation, 684
BODANSKY, M., and V. B. DUFF. Age as a factor in the resistance of the albino rat to thyroxine, with further observations on the creatine content of tissues in experimental hyperthyroidism, 541
BODANSKY, M., and V. B. DUFF. The influence of pregnancy on resistance to thyroxine, with data on the creatine content of the maternal and fetal myocardium, 537
BODANSKY, M., and V. B. DUFF. Nitrogen and creatine metabolism in relation to environmental temperature and thyroid function, 822
BOISSEVAIN, C. H., and W. F. DREA. Relation between the occurrence of endemic goiter and the presence of traces of silver and barium in drinking water, 686
BRAM, I. Dating endocrine substances: a plea for fresh products, 866
BRAZIER, M. A. B. The impedance angle and thyroid disease, 621
BULGER, H. A., and D. P. BARR. Metabolic studies of pituitary insufficiency, 137
BURCH, J. C. See Ellison, E. T., 746
BURDICK, H. O. See Whitney, R., 643
BURFORD, T. H., E. ALLEN, and A. W. DIDDLE. Effect of total thyroidectomy upon mature ovariectomized monkeys, 635
experimentally induced menstruation in
BURFORD, T. H. See Allen, E., 546

Cachexia hypophyseopriva, case of, 149
Calcium intake and blood iodin level, 809
Calorigenic action of hypophysis, 155
CAMPBELL, K. R. See Bodansky, M., 684
CATCHPOLE, H. R. See Glass, S. J., 333
CAVANAUGH, L. A. See Shelton, E. K., 846
CHADWICK, C. S. See Wolfe, J. M., 503
CLARK, J. H. See Rowntree, L. G., 348
COATES, C. W. See Weisman, A. I., 561
COLLIP, J. B. See Selye, H., 667
COPPOCK, A. See Freed, S. C., 81
Corpus luteum and adrenalectomy, 550
human, progestin in, 741
Cortin, assay of extracts containing, 795
COSTELLO, J. P. Obesity and ocular symptoms in mentally alert children due to hypothyroidism, 105
Creatin and hyperthyroidism, 541
in maternal and fetal myocardium, 537
metabolism in relation to environmental temperature and thyroid function, 822

De Fremery, P. See Levy Simpson, S., 363
Diabetes mellitus and estrogenic hormone, 473
in pituitary infantilism, 856
treatment of, 461
Dickie, L. F. N. See Thompson, W. O., 55
Diddle, A. W. See Allen, E., 546
Diddle, A. W. See Burford, T. H., 635
Drea, W. F. See Boissevain, C. H., 686
Duff, V. B. See Bodansky, M., 537, 541, 822
Dwarfism, hypophyseal, 64

Elden, C. A. The effects of the two ovarian hormones on castrated human females, 47
Elden, C. A. The pituitary-ovarian relationship in a human hypophysectomized female, 679
Elder, J. H. See Allen, E., 546
Ellison, E. T., and J. C. Burch. The effect of estrogenic substances upon the pituitary, adrenals and ovaries, 746
Emery, F. E., and E. L. Schwabe. The rôle of the corpora lutea in prolonging the life of adrenalectomized rats, 550
dysfunction and familial hemolytic icterus, 174
glands and myopathy of nutritional origin, 393
substances, dating of, a plea for fresh products, 866
Estrin, changes in hypophysis, due to injections of, 503
effect of, 47
effect of, on pH of vaginal secretion, 210
extraction of, 224
and the menopause, 24
and menstruation, 318
and progestin therapy in prolonged anovulatory bleeding, 769
squamous metaplasia in cervical glands following administration of, 228
Estrogenic hormone, crystalline, from ovarian tissue, 563
effect, of, on blood volume, 329
effect of, on pituitary, adrenals and ovaries, 746
effect of single large dose on ovary of infantile rat, 753
evaluation of potency of, 863
in fish, 561
use of, in experimental diabetes, 473
Estrogens in urine, 546
Exophthalmic goitre, error in testing for quadriceps weakness in, 109
